

JFITT-MOUT

SAVE THE DATE 17 June 2010

The Joint Fully Instrumented Tactical Trainer-Military Operations Urbanized Terrain (JFITT-MOUT™) is a fully instrumented modular frame and panel structure with reconfigurable interior and exterior walls, that offers "plug and play" simplicity with modular structures for urban tactical, OEM, and fire training.

Experience the Latest in High Fidelity Simulated Combat Training

An interactive demonstration, showcasing a next-generation close combat training system will occur in **Orlando on June 17 from 1:30 PM to 3:30 PM**. SMH International, LLC, in conjunction with UXB International, CUBIC Simulation Systems and the US Army, will host a two hour event presenting the latest technology in training - the Joint Fully Instrumented Tactical Trainer-Military Operations Urbanized Terrain (JFITT-MOUT™). This patent-pending system was designed to meet the ever-changing training requirements for Homeland Defense and the Global War on Terror.

The demonstration will include an overview of JFITT-MOUT's™ technical capabilities, as well as explain the flexible reconfiguration options and integral instrumentation used to produce realistic urban warfare scenarios that can better prepare our military, special operations and law enforcement personnel. The demonstration at Cubic Simulation Systems facility on 2001 West Oak Ridge Road in Orlando, FL, will explain the options for multi-use applications suitable for tactical, first responder and fire/rescue training from a single facility.

RSVP to Karen Riccio, Programs Administrator at SMH International,
karen.riccio@smhintl.com, or direct (856) 642-9595.

Round Trip transportation will be provided from SOFIC (Tampa Convention Center) to Orlando. The bus will depart at noon on 17 June from the pedestrian drop off/pick up point at the Channel Entrance of the Tampa Convention Center which is off Franklin Street. The bus will return to this location by 5 PM same day.

Save the date **June 17th, 2010** to experience the newest in close combat simulated training!

Experience the Latest in High Fidelity Close Quarter Combat Training

RATPAC™ Train-the-Trainer and Force Option Weapon Training Systems programs

An interactive demonstration showcasing a **next-generation close combat training system** will occur in **Orlando, Florida, on June 17 and 18, from 8:00 a.m. to noon**. UXB International, Inc., in conjunction with [Team APC](#), [CUBIC Corporation](#), [SMH International](#) and the US Army, will host a two-day event presenting the latest technology in training - the Reconfigurable Armored Tactical Personnel And Collective ([RATPAC™](#)) Training System. This patent-pending system is designed to meet the ever-changing training requirements for Homeland Defense and the global war on terror.

The training will include an overview of RATPAC's technical capabilities, as well as explain the flexible reconfiguration options and integral instrumentation used to produce **realistic urban warfare scenarios** that can better prepare our military, special operations and law enforcement personnel. The free Train-the-Trainer and Force Option Weapon Training Systems programs will give trainers the ability to provide end users with the proper knowledge and hands-on skills to perform training and maintenance operations when using the RATPAC for scenario training operations.

Demonstrations at Cubic Corporation's Simulation Systems facility on 2001 West Oak Ridge Road in Orlando, FL, will explain the options for multi-use applications suitable for tactical, first responder and fire/rescue training from a single facility.

RESERVE YOUR SEAT:

There is limited seating for this free training. Reserve your seat now by contacting Karin Clark at UXB International via email, karin.clark@uxb.com or phone, 1.540.443.3749.

Special Operations Forces Industry Conference (SOFIC) ATTENDEES: On June 17, transportation from the SOFIC event in Tampa to Orlando has been arranged at no cost. The bus will depart at noon from the pedestrian drop off/pick up point at the Channel Entrance of the Tampa Convention Center (located off of Franklin Street). The bus will arrive at the Cubic location in Orlando around 1:30 pm and depart Orlando at approximately 3:45 pm. The bus will return to Tampa by approximately 5 pm. UXB International and SMH International are sponsoring this bus trip and there is no charge to the riders. To reserve your seat on the bus, contact Karen Riccio at SMH International via email karen.riccio@smhintl.com, or phone 1.856.642.9595.

THE TRAINING AGENDA:

The outline for the *Train-the-Trainer and Force Option Weapon Training Systems* programs on Thursday, June 17 and Friday, June 18, 2010, follows:

0800-0900: Introduction/System Features/Operations

Overview of the RATPAC™ system and discussions of system features

0900-1000: RATPAC Course Overview

Training Overview

Video segments of RATPAC™ units in use with operators shown (including rappelling segments)

1030-1200: Walk through RATPAC / Live Demo with Training Group:

Mission support walk through of the RATPAC™ unit

Practical applications of the unit

Training demonstration runs

1200-1300: Lunch for trainees

**Special Session for SOFIC attendees, June 17, from 1:30 to 3:30
